

INJECTION MOULD MAKER

ERBIWA MOULD INDUSTRIAL CO., LTD  
<http://www.erbiwa-mould.com>

### 2K Injection Mold With TPU+PA66 Material

2K Injection Mold With TPU+PA66 Material: We have rich experience in manufacturing 2K injection mold in good quality, and we has specialized in precision plastic mould and plastic part manufacture for years, serving global customers. We are expecting to become your long term partner in China.

### Buy 2K Injection Mold With TPU+PA66 Material with High Quality

So that you can supply you with comfort and enlarge our company, we also have inspectors in QC Workforce and guarantee you our greatest service and item for Discount Price China 2K injection mol, Welcomes all overseas friends and retailers to establish collaboration with us. We're going to give you with straightforward, top quality and effective services to fulfill your demands.

Discount Price China Auto Parts, 2K injection mold, Our items are widely recognized and trusted by users and can meet continuously developing economic and social needs. We welcome new and old customers from all walks of life to contact us for future business relationships and achieving mutual success!

### 2K Injection Mold With TPU+PA66 Material Introduction

We can customize the 2K injection mold based on customer drawing and specification specially.

We adopt integrated ERP system to plan and control the whole process for a project from quotation to DFM, design, manufacture, test, production and delivery.

We have advanced precision facilities and professional experienced project team to ensure our mold in good quality with on-time delivery.

We are endeavoring to become one of the leaders in the field of mould manufacturing in the world.

### 1.2K Injection Mold With TPU+PA66 Material Parameter (Specification)

Mould Details
---------------

ERBIWA MOULD INDUSTRIAL CO. , LTD.

Address:NO. 96 Jinghai Middle Road, Shatou Community, ChangAn Town, Dongguan City, GuangDong Province, China.

Tel:+86-769-88007279

E-mial:sam@erbiwa.com.cn

Phone:+86-13877585320

Item Name	ISO9001 certificated customized 2k injection mold with TPU+PA66 material
Mould Material	1.2343,NAK80, S136, SKD61, 2738, H13, 718H, 738H, P20, 1.2311etc
Product Material	PET, PBT, PPS, PA6/PA12, LCP, PPE+PS, PPI, ABS, PC, ABS+PC, POM, PP, etc
Cavity No.	Single or Multi cavities
System Of Runner	Hot runner, Cold runner, Pin-point gate, Submarine gate,Edge gate, Fan gate etc
Hot runner	Husky / INCOE / Syventive / HRS / YUDO/ EWIKON / Mold-Master hot runner
Ejector Type	Ejector pin, Ejector plate, Hydro-cylinder, etc
Standard	DME / HASCO / Meusburger / LKM / Futaba / Misumi / Progressive standard etc
Lead Time	35-55 Days
Cycle Life	500-1000000 shots
Mould Design Software	UG, ProE, Solidworks, AutoCAD, Moldflow, ect

### 3.2K Injection Mold With TPU+PA66 Material Feature And Application

We can customize different size and geometry 2K injection mold in different molding material with variant texture surface or colors.

- I Household appliances
- I Electronic devices
- I Medical devices
- I Automotive interior panel

### 4.2K Injection Mold With TPU+PA66 Material Details

Name: ISO9001 certificated customized 2k injection mold with TPU+PA66 material

cavity/core steel: 1.2344ESR steel

moulding material: TPU+PA66 Color: customized color

Cavity: 1+1 cavity

Surface finishing: General polishing

Tool life: one million shots

## INJECTION MOULD MAKER

ERBIWA MOULD INDUSTRIAL CO., LTD  
<http://www.erbiwa-mould.com>

### 5.2K Injection Mold With TPU+PA66 Material Qualification

We are ISO9001:2015 and IATF16949 certificated precision plastic injection mold maker and moulding company.

### 6.Deliver,Shipping And Serving

Our QC will 100% inspect the mold and parts before shipping and provide detailed inspection report.

After pass inspection, we will carefully clean the mold and parts.

- 1) .For moulds, they will be coated one-layer anti-rust oil firstly,and then covered thin films overall the mould, finally pack into non-solid wooden case.
- 2) .As for plastic products, we will pack into standard export cartons or as per customer's requirements.

## 7.FAQ

**Q: How can I get the quotation?**

A: We will submit the quotation in 24 hours if getting detailed information during working days. In order to quote for you earlier, please provide us the following information together with your inquiry.

- 1) 3D Step of Files and 2D Drawings
- 2) Material requirement
- 3) Surface treatment
- 4) Quantity (per order/per month/annual)
- 5) Any special demands or requirements, such as packing, labels, delivery, etc.

**Q: What are the main oversea markets of ERBIWA?**

A: Currently ERBIWA regular oversea customers are from Germany, US, Italy, France, UK, Spain, Netherlands, Japan, India, and Demark etc.

**Q: How do you control the quality?**

A:

- 1). Materials inspection by IQC, including hardness check, overall dimension and material certification.
- 2). The first sample inspected by QC, and QC will check as per the parameters list and critical dimensions according to 2D drawing provided by customers.  
After dimension checked to be OK, and we will send samples for customer approval to decide if it can go ahead with production;
- 3). During injection moulding production, our QC will check the injection molded parts every 2 hours, ensure no any rejects and parts are produced in stable quality;
- 4). FQC will check the products before sending to the warehouse;
- 5). 100% inspected by OQC before shipping out to customer.

**Q: What shall we do if we receive defective products?**

A: If receive defective product, please send us the photos, we will feedback to our engineers and QC departments and solve the problems at top urgent.
